Lead-Free POGO® Spring Probes

WWW.ETC-CPG.COM

ECT CONTACT
EVERETT CHARLES TECHNOLOGIES PRODUCTS
A Cohu Company

A variety of LFRE™ tip styles give you the flexibility to meet your application needs

Probe tips, manufactured with ECT's MicroSharp™ technology, offer the ultimate in long-lasting tip sharpness and contact integrity

A double-roll close offers the industry's best pointing accuracy that helps you hit the smallest test targets with high repeatability

Interaction of the captured ball, bias-cut plunger end and applied spring force guarantees uninterrupted electrical contact with the probe barrel sidewall, virtually eliminating probe related false opens

A shorter plunger permits more spring volume, higher spring force and longer spring life

ECT's precious metal plating process, together with enhanced bias contact, provides highly repeatable conductivity

ECT® LFRE: Spring Probes - Cleaner Environment

The Lead Free Challenge

Lead free solder can cause many problems in-circuit testing. Lead free solder has a higher reflow temperature, which can result in harder and stickier solder flux resin and a thicker, harder oxide layer. This thicker layer of resin and oxide is more difficult to penetrate and increases wear on the pogo pin. Lead free solder resin and oxides can also increase debris transfer to spring probes. These are many of the issues found in OSP and No-Clean applications. ECT has developed a test probe, specifically designed to solve these problems.

ECT Lead Free POGO® Spring Probe Series

ECT's Lead Free probe line incorporates a number of features that will significantly reduce the issues that arise when switching to lead free solder as well as those contact issues that arise with OSP and No-Clean solder flux.

- **Proprietary Plating**

Our Lead Free probe incorporates a harder and slicker plating that not only resists wear but also reduces solder and debris transfer.

- **POGOPlus™ Bias Ball Design**

The POGOPlus internal bias ball design guarantees uninterrupted electrical contact with the probe sidewall virtually eliminating probe related false opens.

- **Range of Spring Force Choices**

Compared to competitors' products, which offer limited spring force options, ECT's LFRE POGO spring probes are available in a variety of spring force choices in 100 mil, 75 mil, 50 mil and 39 mil centers.

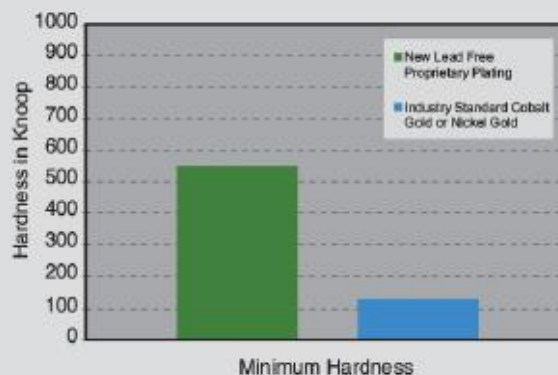

- **Pointing Accuracy**

ECT's Lead Free probe incorporates a double roll close, which offers the industries best pointing accuracy. Increased pointing accuracy is of benefit when using Lead Free solder and/or No-Clean as the probe is less likely to touch the edge of the pad where the solder flux accumulates.

ECT's Proprietary Lead Free Plating vs. the Industry Standard

The industry standard for plated spring pins is gold electroplate alloyed either with cobalt or nickel to enhance its hardness. Hardness is increased from 90 Knoop for 99.7% pure electroplated gold to 130 to 200 Knoop when alloyed with nickel or cobalt. ECT's proprietary lead free plating is significantly harder than the industry's standard gold plating. Our proprietary plating has a hardness range of 550 to 650 Knoop. This makes the probe tips more durable and less susceptible to solder and material transfer.

DESCRIPTION

EXTRUDED ALUMINUM

Length: 20ft (6.1m)

Aluminum vs Steel

Think about the fact that, volume for volume aluminum is one third the weight of iron, steel, copper or brass. Yet it has yield strength of 35,000 psi, which means it is comparable to A36 steel carbon (frequently used in applications such as equipment and machinery supports as well as building frames). Furthermore, aluminum is resilient and can flex under loads or reshape itself after the shock of impact.

80/20 T-slot Aluminum

Modularity is just a part of the many benefits aluminum offers to those looking for an alternative to steel and iron.

Other benefits:

- Weighs less than steel
- Corrosion-resistant
- No welding required
- Costs less than steel
- Strength similar to steel
- Machining not required

Welded Steel Frame

For the skilled welder, steel can be a viable option but for many it's not an option for many reasons:

- More time and labor
- Welding required
- Machining required
- More expensive
- Needs painting
- One fixed design

ASI INDUSTRIAL

Antaira Technologies is a leading developer and manufacturer that provides high-quality industrial networking and communication product solutions. Since 2005, Antaira has offered a full spectrum of product lines that feature reliable Ethernet infrastructures, extended temperature tolerance, and rugged enclosure designs. Our product lines range from industrial Ethernet switches, Ethernet media converters, and serial communication devices. Our vast professional experience allows us to deploy a wide array of products worldwide in mission-critical applications across various markets, such as, automation, transportation, security, oil & gas, power/utility, and medical.

ISO9001 ISO14001 ISO80079-34 ISO/TS22163 IATF16949

Global manufacture site

Brief Introduction

Founded in 1999, DEGSON is a global solution provider of electrical, electronic and industrial connectors. As a National High-tech enterprise, DEGSON owns the UL and VDE certified laboratory. The company achieved ISO9001, ISO14001, ISO80079-34, ISO/TS22163 and IATF16949 management system certifications.

DEGSON is engaged in supplying highly reliable and durable products to serve global customers. The company has a market-leading capability of mould processing, automatic manufacturing and advanced testing. DEGSON has the complete engineering ability to support global customers with the professional customization solution and value-added service.

DEGSON products are widely recognized in China, the USA, Germany, the UK, Italy, Spain, Turkey, Japan, South Korea, Singapore, etc. totally hundred countries and regions. DEGSON supply high quality products and provide professional services globally in the industry sectors likely industrial automation, instrument, electric power, railway, marine and offshore, new energy, elevator, lighting, security, machinery, etc. The company won the recognition from partners among Fortune 500 and industry leading enterprises.

Based on the business philosophy of "pragmatic innovation, responsibility, integrity, harmonious development, regulation and win-win", DEGSON continuously integrates professional technical resources, R&D innovation, product manufacturing and technology application capabilities. Relying on global sales network, DEGSON aims to supply series of multiple varieties of high-quality products and services. We provide global customers with professional and quick connected application solutions, help customers continue to create value. DEGSON is making contributions to creating a smart and interconnected world.

CONTENTS

PLUGGABLE TERMINAL BLOCKS

Plug-in terminal blocks, provide the wire size from 0.08mm² to 10mm². Available with different pitches from 2.5mm to 10.16mm. Choosing insert direction, contact direction, plug-in direction according to requests. The product is designed in accordance with IEC/EN1984. UL1059. CSA C22.2 No.158 standards.

...01-12

PCB UNIVERSAL SCREW TERMINAL BLOCKS

PCB universal screw terminal blocks, this typical feature of the screw connection system is characterized by the easy connection and extremely high contact strength. Provide the wire size from 0.08mm² to 35mm². Available with different pitches from 2.54mm to 15.0mm, and 3 wire insertion directions: 90°, 135°, 180°. The parts can be assembled by 2 ways and 3 ways, with the design level structures from 1 level to 4. The product is designed in accordance with IEC/EN60998. IEC/EN60947-7-4. UL1059. CSA C22.2 No.158 standards.

...12-17

PCB SPRING TERMINAL BLOCKS

PCB Spring terminal blocks, available with two connection methods, cage clamp contact and dish clamp contact. It can be used instead of Printed Circuit universal screw terminal blocks, more flexible. The product is designed in accordance with IEC/EN60998. IEC/EN60947-7-4. UL1059. CSA C22.2 No.158 standards.

...17-20

TRANSFORMER TERMINAL BLOCKS

Transformer terminal blocks, with structure design features of easy wire connection and reliable connection, also with snap foot allowing quick fitting to flat mounting rails 100mm or to snap-in devices of the winding frame. The product is designed in accordance with IEC/EN60998. UL1059. CSA C22.2 No.158 standards.

...20

THROUGH-WALL TERMINAL BLOCKS

Through-wall terminal blocks, the design of a structure is characterized by the easy connection and extremely high contact strength. These connectors are available in all types of wire with the size from 0.5mm² to 95mm², and designed in accordance with IEC/EN60947. UL1059. CSA C22.2 No.158 etc.

FEED THROUGH TERMINAL BLOCKS

Feed through terminal blocks, connecting with two conductors easily and creditably, provide the wire size from 0.5mm² to 16mm². Available with fuse and without fuse. The product is designed in accordance with IEC/EN60998. UL1059. CSA C22.2 No.158 standards.

...21-22

BARRIER TERMINAL BLOCKS

Barrier terminal blocks, connecting easily can be mounted on PCB board, panel and Din Rail. Wire range from 0.5mm² to 300mm². Available with different pitches from 6.35 to 60mm, with cover and without cover. The product is designed in accordance with UL1059. CSA C22.2 No.158 standards.

...22-27

DIN RAIL TERMINAL BLOCKS

Din Rail terminal blocks, available with three connection methods, Push-in connection, Spring Cage connection, Screw connection. The combination terminals connect two conductors easily and creditably. They are designed for fitting both U type and G type Din Rails. The product is designed in accordance with IEC/EN60947. UL1059. CSA C22.2 No.158 standards.

...27-36

IP20 I/O SYSTEM

It is suitable for modular, field-bus in dependent distributed I/O systems. Users combine different digital input/output modules, analog input/output modules, power supply modules, etc. We can provide PROFIBET, PROFIBUS-DP, EtherCAT, Modbus TCP, etc. The product is compact in shape, compact in structure and easy to assemble.

...37

RELAY

It is an automatic switching component with isolation function. It is one of the most important control components in remote control, telemetry, communication, automatic control, electromechanical integration and power electronic equipment. Between the input and output of the relay, the input part is isolated, the function is processed, and the output part is driven by the intermediate mechanism (drive part).

...37-38

INTERFACE MODULE

Interface Module, now we have connector Module series, Relay Module series, Miniature Relay Module series and Solid State Relay Module series.

...38-39

The items marked "1" or "2" are the parts under scheduling.
The catalog is only for reference, and the detail data must be based on our company's specification!

If you need more details, please contact us for latest catalogues, or visit our website!

DIN RAIL TERMINAL BLOCKS

Marking System

Degson marking system, providing a complete solution for industrial site identification case. Our thermal transfer printers and laser printers provide customers with Terminal blocks marker, Cable marker, Device marker Printing Service.

Model: PM-00A
Order No: 9902000001

Writing Machine

- Flexible drawing function to realize automatic calibration of various logo printing requirements.
- To achieve better marking effect, large-scale marking areas, batch printing.

Model: PPT
Order No: 9902000007/3 no released

Thermal Transfer Printer

- Support plate printing, marking the terminals is applicable to ZS and ZSF standard marker.
- Thermal transfer printing technology, quickly realize batch printing.

Model: DSB Order No: 1006000001	Model: DSB Order No: 1006000002	Model: DSB Order No: 1006000003	Model: DSB Order No: 1006000004	Model: DSB Order No: 1006000005

Thermal Edge Inc.

TEMPERATURE CONTROL SOLUTIONS FOR ELECTRICAL ENCLOSURES

Product Line Overview

**UL, cUL Listed and CE Certified
Standard & hazardous locations**

Thermal Edge manufactures temperature control solutions designed to solve the enclosure cooling challenges that your industrial application poses for your electrical control panels. All products are designed and tested to meet your strict requirements for quality and durability. All products are equipped with time and energy saving features.

**Manufactured
in the
United States**

Thermal Edge enclosure air conditioners and heat exchangers are proudly made in Irving, Texas, U.S.A.

**Programmable
Digital
Controller**

Programmable set point and temperature controls, visible error and/or alarm messaging, and system protection.

**Energy
Efficient
Operation**

Thermal Edge enclosure air conditioners offer a condensation management system which lowers running amps.

**5
YEARS**

**Industry Leading
5-Year
Warranty**

Thermal Edge products are warranted to be free of defects in workmanship, materials and components

AIR CONDITIONER OPTIONS

- Electrostatic Coil Coating to protect from corrosion caused by a salt or chemical environment
- Integrated Heat Packages to provide total temperature control for your enclosure, not just from the heat of summer but from the cold of winter
- Dry Contact Options to allow the use of alarms, lights and notifications
- External Heat Control to support use of an externally mounted heater in the enclosure
- 316 Stainless Steel for applications where 304 is not suitable
- Hazardous Location for Class 1, Division 2 Groups A, B, C & D applications
- Vibration Package allows for enclosure cooling on cranes, moving vehicles or other difficult locations
- 2" Deep Extended Filter Media for applications like flour, cement or coal when a standard filter will load too quickly
- Remote Controller Option to place our digital controller inside the electrical enclosure when the environment requires more security
- Redundant System Package for critical applications, when enclosure cooler failure is not an option. This system operates two air conditioners with specially programmed controllers that toggle the two units to operate them alternately to guarantee that your enclosure always stays at its required temperature and provide automatic backup
- The Universal Mounting Plate allows mounting the Thermal Edge Enclosure Air Conditioner onto an enclosure that formerly held a different air conditioner model

Enclosure Air Conditioners

1,000 - 20,000 BTUH

Air to Water Heat Exchangers

3,690 - 7,773 BTUH

Air to Air Heat Exchangers

12 - 40 Watts/°F

Plastic and Metal Filtered Fans

80 - 750 CFM

Thermal Edge air conditioners can be built to operate on the voltage and frequency available wherever you need them.

STANDARD ON EVERY THERMAL EDGE AIR CONDITIONER

- Industry leading 5-Year Workmanship Warranty
- Energy saving condensate evaporation system
- Fully programmable digital controller
- Thermal expansion valve
- Full A/C product line available in UL Types 12, 4 & 4X
- UL Listed under Standard 484, file number SA32252
- Rigid chassis and seam welded shroud
- Proudly manufactured in the U.S.A.

**NO WATER
DRIPS FROM
THERMAL EDGE
ENCLOSURE AIR
CONDITIONERS**

AIR TO WATER HEAT EXCHANGERS

- Industry leading 5-Year Workmanship Warranty
- Closed-loop Design
- Filterless Maintenance Free
- Optional Digital Controller and Solenoid Water Valve
- UL Types 12, 4 & 4X
- 115 VAC, 230 VAC and 460 VAC
- UL Listed

- 3,690 BTUH
- 7,773 BTUH

AIR TO AIR HEAT EXCHANGERS

- Industry leading 5-Year Workmanship Warranty
- High efficiency heat pipe design
- 3 different chassis sizes
- Standard units include on/off switch
- UL Types 12, 4 & 4X
- 115VAC, 230VAC, 24VDC & 48VDC
- Needs no filter
- UL Listed for standard & hazardous location

PLASTIC AND METAL FILTERED FANS

80 CFM - 750 CFM in a variety of sizes

- Industry leading 5-Year Workmanship Warranty
- Available in injection molded plastic, 16 gauge powder coated steel and 304 stainless steel
- UL Types 1, 12 or 3R
- Washable filters
- Includes a filtered exhaust panel
- Comes assembled with template and gaskets

About Axiomtek

Empowering IoT Innovation

Over the past 30 years, Axiomtek has been among the major design and manufacturing companies in the field of industrial computers and embedded systems. Since its establishment, Axiomtek has successfully gained worldwide recognition for our innovative designs and outstanding customer satisfaction. As a valuable & reliable industrial manufacturer, Axiomtek is devoted to producing state-of-the-art solutions that support users in achieving success. Axiomtek takes pride and ownership in what we do through our commitment to excellence.

Vision To be atop of the embedded computer industry, recognized by our partners as a trusted source of reliable products and dependable services

Mission To empower IoT innovation with reliable products and trusted services

Value Systems

- Passion:** We are passionate about our vision, our goals and our commitment to serve our employees and customers.
- Integrity:** We earn your trust through honest and ethical business practice.
- Innovation:** Our focus is on developing new products using the most advanced technologies and customer-based experiences.
- Partnership:** We commit to long-term mutual success with customers, employees and stakeholders.
- Leadership:** Our goal is always to be the leader in our targeted markets.
- Diversity:** We strive to diversify our products and services to serve specific industry needs.
